In the mystery of the crimson manor you will find:

Amazing and beautiful graphics.
Engaging and deep storyline.
Fun and addictive gameplay.

Features:

- +Fun, amazing and clever puzzles.
- +Many different environments to discover & explore.
- +An interactive original & unique storyline.
- +Superb level, puzzle and game design.
- +High performance even in earlier generations devices.
- +High-resolution graphics optimized for retina display.
- +Multiple languages, autosave and much more ...
- +Also expect new game modes & new features in the free updates.

History:

Strange weather events are happening in town lately, some people blame the eccentric Mr. Strange, an old scientist who performs strange experiments in his hill manor.

He decides to invite you, the best reporter in town, with the idea of making public its latest & wonderful discovery, which he describes it as:

"Something so wonderful that will change forever the way we see the world & the very fate of humanity"

You accept the invitation, but on arriving at the mansion, you can not find anyone, you sense that something strange is happening there, so you decide to investigate

About MediaCity Games:

MediaCity Games is a nation of ideas. A place where technology and professionals create, design and develop innovative projects to bring them to market.

Games
Apps
and all those kinds of ideas that provide entertainment starting from mobile devices and tablets.

We are a group of people who also work very hard to create and enjoy what we do.

Our Mision

We are a 100% Honduran industry, which means to create the unthinkable and everything that can be run from a starting point to the five foundations of our system:
creativity,
Innovation,
commitment
development
learning styles and
new opportunities.

Our Vision

In 2015 will be the first videogame developer from Honduras to the World, contributing not only in mobile systems and tablets, eventually, with all the support from the fans will create the first, First Person Shooter Game. It is currently integrated by a team of 24 professionals in software engineering, digital art and music.
